

ABOUT NEXON

Founded in 2000, Nexon Asia Pacific (Nexon) is a cloud and managed service provider delivering cutting-edge solutions, to help businesses run more efficiently, create better user experiences and explore bigger opportunities.

Nexon's depth of expertise spans across a range of technology specialities and industries, bringing these skills together to create business solutions, simplifying the process and the technology for our clients. We offer a range of services including cloud services, unified communications, managed security, business continuity, network infrastructure and business solutions to clients in the mid-tier sector. Everything we do is about creating true partnerships with our clients to transform the way you interact with technology and how you service your clients.

With over 100 employees across Sydney, Melbourne and Brisbane, Nexon holds a proven track record in delivering I.T. for the dynamic business.

THE NEXON ADVANTAGE

Nexon delivers I.T. for the dynamic business. Our solutions help clients run their businesses and operations better, while delivering better user experience.

We design, implement and support client's entire I.T. environment – from network and cloud infrastructure, to systems and applications, right through to delivery to desktop and day-to-day support.

At Nexon, we adopt a building block and collaborative approach to the planning and delivery of business technology solutions. We work closely with clients to meet their business objectives, improve business processes, and provide them with solutions that not only meet their current requirements, but also future needs.

Nexon is an embedded partner, behaving as an integral team member for clients on all I.T. related matters. We work with you to identify new and emerging technologies and how they could be applied in your organisation to respond to business opportunities.

Explorative, creative, and innovative in our approach, Nexon encourages and works with clients to take strategic "first-mover" advantage with technology.

LONG-STANDING PARTNERS

We partner with world-class technology vendors.
