

# NEXON MA<sup>3</sup>

Seamless communications across any device.

Nexon's MA<sup>3</sup> delivers innovative tools, systems and solutions to allow your business to securely connect, collaborate, and make smarter, faster decisions. By combining infrastructure and software we deliver secure connectivity and productivity applications, unified communications and business continuity.

Stay agile with this comprehensively managed service, offering you:

-  Operated expenditure on a per-handset/per-month basis, so it's super flexible, easy and scalable.
-  SIP trunking service – allows you to converge all voice and data.
-  Survivability and disaster recovery – enabling business continuity.
-  Delivered as a managed service, with biennial upgrades ensuring the latest version, features and functionality.
-  Single, convenient billing delivered on a monthly basis.
-  Leverage existing assets, ensuring value for money.

Our varied licence model means Nexon manages the MA<sup>3</sup> service for you by offering a highly tailored solution for your business – on premise, off premise or a hybrid model – to suit your unique communication technology needs.

## SWITCHING TO MA<sup>3</sup> IS EASY

At Nexon, we work with your existing infrastructure to make things seamless for your business. This way, we minimise risk and MA<sup>3</sup> fits whatever model your business requires – on premise, off premise or hybrid solution – and best of all, your system remains 'evergreen'.

With MA<sup>3</sup>, there's no updating or upgrading for you to worry about. We manage this for you so your business will always be up-to-date.

## EASY BILLING AND SCALABLE

You only pay for what you use. Your uniquely tailored MA<sup>3</sup> package and monthly bill is scaled up and down to suit your business needs in 'real time' and real terms so that it works for you.

And better yet, we offer single billing so there's only one bill!

## KEEP MOVING ANYTIME, ANYPLACE, AND ANY DEVICE WITH FULL CONFIDENCE

Not only do we leverage off your existing assets, you get peace of mind with this totally managed communications service as you're covered in the cloud.
