

Is your not-for-profit equipped for the digital age?

Not-for-profit organisations (NFPs) face growing demands for efficiency, transparency, and digital engagement – all while working with limited budgets and resources.

To continue making an impact, NFPs need cost-effective, scalable technology solutions that support fundraising, service delivery, and stakeholder engagement. This is where a trusted network partner like Nexon Asia Pacific (Nexon) can help.

EFFICIENT

Are tight budgets slowing down your digital transformation?

NFPs need robust digital systems to manage donations, service delivery, and volunteer coordination, but tight budgets often lead to outdated technology and inefficiencies.

Did you know?

#1 Budget constraints are the #1 barrier to digital transformation for NFPs.¹

77% of NFPs don't have systems that allow them to effectively measure service impact.²

To maximise efficiency and impact, organisations need cost-effective, scalable digital solutions.

CONNECTED

Are disconnected systems making service delivery harder?

Many NFPs rely on multiple platforms for fundraising, volunteer management, and client services. Without seamless integration, service delivery suffers.

Did you know?

28% A 28% improvement in staff satisfaction is reported when NFPs implement a strong IT strategy.³

NFPs need integrated, cloud-based platforms that improve collaboration and simplify operations.

SECURE

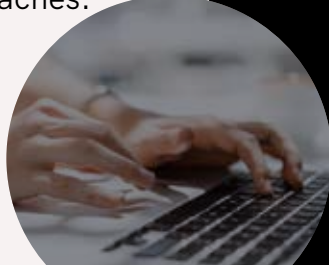

Is your organisation protected against cyber threats?

NFPs handle sensitive donor, beneficiary, and financial data – but many lack the cybersecurity measures needed to protect against breaches.

Did you know?

1 in 2 NFPs do not use multi-factor authentication for sensitive systems, leaving them vulnerable to cyberattacks.⁴

To protect donor trust and ensure compliance, NFPs require robust cybersecurity solutions.

FUTURE-READY

Are outdated systems limiting your fundraising and engagement?

Supporters expect seamless, digital-first experiences when donating or interacting with NFPs, but legacy systems can create frustrating roadblocks.

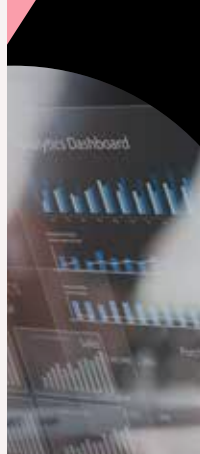

Did you know?

NFPs with modern digital tools can improve donor engagement and operational efficiency.

To scale their impact, NFPs need future-ready IT infrastructure that supports digital fundraising, AI-driven engagement, and remote accessibility.

Does any of this sound familiar?

If these challenges are holding your organisation back, Nexon can help.

We're an Australian-founded digital solutions provider that understands the unique needs of the not-for-profit sector, and can deliver the fast, secure and flexible networks you need.

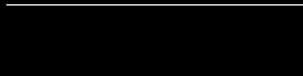

With expertise in networking, cybersecurity and digital transformation, we help organisations improve efficiency, safeguard data, and future-proof their IT infrastructure.

Let us take the complexity out of modernising your IT, so you can focus on making a difference.
